

Apple TV cheat sheet

Connecting macbook air (silver) to apple TV

- Select airplay icon 
- Select room to connect to
- Audio will automatically be enabled, but

Connecting macbook (white) to projector

- Plug in macbook to VGA adapter...will need to have correct dongle. Tricia Smith would be the best contact for this.
- Speakers may need to be changed. Most rooms, should be Tv/AUX

Connecting ipad to apple TV

- Swipe up from the bottom of iPad to bring up dock
- Next touch the airplay button which is the rectangle and the triangle. Then the Apple Tv Number is the same as the room you are in

To disconnect, do the same thing you would to connect and instead of connecting to the room number, it should say iPad at the very top.

- Audio will automatically be enabled, but speakers may need to be changed. Most rooms, should be tape
